

The Visual Art Department Earth Day Project - Recycled Items Needed

The Utahloy Visual Art Department wants to celebrate and help promote Earth Day April 22, 2010, for a healthy world and students that care for their environment. The Visual Art Department in Primary and Secondary are planning special activities & workshops during Arts Week that will focus on re-using and recycling waste into ART!

We are now collecting donations from parents/teachers/students of: old magazines, old newspapers, plastic containers, boxes (cereal, tea, shoebox, etc.), old broken computers, tv remotes, broken toys, etc. A great way to clean out your house, recycle, and see your garbage turned into inventive amazing art!
Please drop any items at the front office or to the primary or secondary art room.

Many Thanks,
Catherine Hallam
Arts Coordinator
