

UISZ Community Summary – Week 30

Upcoming Events

April 28: DP Exams Start (Three Weeks)

May 10: MYP Exams Start (Two Weeks)

May 26: Spring Performance

Head of School Message

Happy Earth Day from UISZ!

We hope that many of you will make it to school today for our EcoEdu Fair. Students and teachers worked considerably hard to raise awareness on the urgency to protect our “Home”. We thank all of those coming today to support them and learn more about how to be agents of change in their immediate community. Sincere thanks also go to Mr Thomas Chow, the architect of the new UISZ site, who introduced the project to students and parents present on-site and online.

Community survey

Parents, students, and all other school stakeholders are invited to participate in this year's community survey this coming week. Your comments and opinions are critical to us. Students from year 4 to 12 will complete their survey Wednesday, and parents will receive a link on an email sent Monday.

Have a great week!

INTRO

As we move inexorably closer to Y12 final exams and the end of the summer term - this week's Wednesday Secondary assembly was all about celebrating Y12 students' determination and achievements in their DP Programme studies - with speeches from current staff as well as former staff, who recorded messages in which they spoke of their fond memories teaching students - and wished them well in their future endeavours. There were also fun videos screened featuring students as they were when they were younger - highlighting the long and hard journey they have been on since Primary.

Also on Wednesday afternoon we had a Covid scare - however the school rapidly responded and all students, staff and families were immediately tested to ensure the safety of the whole UISZ community.

PYP

Message from Ms Ha

In K3/Year 1 class we have been exploring light and sound. The students have been learning about vibrations and investigating how sound travels. They have had a lot of fun in class making their own 'cup a phone' and Kazoos. The students then went on to explore, how they could make their devices sound louder or clearer by changing the materials used.

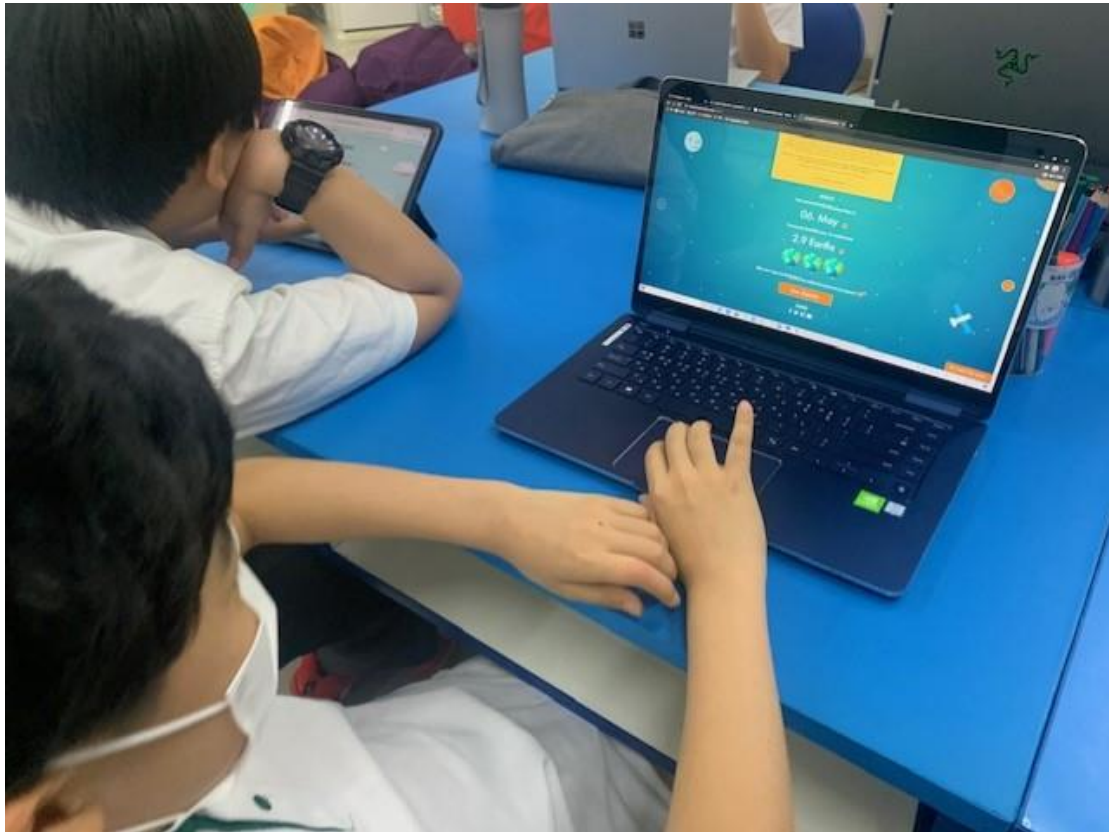

MYP

Message from Miss Valentine

How many Earths do you need to live? This week, as part of our EcoEdu week, our 6th graders have been calculating their ecological footprint. The outcomes were surprising, and gave them the opportunity to reflect on their daily impact on environment. Now is time to take action and see what we could do within UISZ to help restoring the earth...

Message from Ms Tiffany

Over the last two weeks MYP boys had two games with ISD and one game with Tsinglan school. We had a big win on 20th April at the school gym - the score was 40:24. This was a huge improvement on the last game at ISD which was 17:22. When Boys met these taller and bigger players they were so brave persistent and well-organized. They have grown stronger after each play. The girls team had two game with ISD, each game made them understand basketball more, get better each time even though they have really just started. Well done boys and girls, looking forward to see you getting stronger with each new game!

Message from Ms. Lyudmila

Music has the power to bring awareness or even make changes to the world. Year 6 students are learning about Social Justice during the current unit and practicing performing famous songs that did such changes in the past. Students are working in a small groups so everyone has an equally important part in their performance.

BOARDING

Primary boarders this week explored clay sculpture and art with Ms. Jennifer! They were able to experiment and explore the medium using their hands to mold and also clay tools.

Students were able to discuss and reflect on their creations using accurate art related vocabulary.

OUTRO

Well it's been another super-duper week and we wish all our students and their caregivers a restful weekend.

**Warmest wishes,
UISZ School & Boarding Community**
