

UISZ Community Summary – Week 11

INTRO

This week was school photos week with students and staff being photographed on Tuesday and Wednesday in various grouping and individually. On Tuesday morning PYP and MYP students and teachers walked out to the football pitch and assembled for the whole school photos taken by our external photographer Howie. Things got a little hot under the collar so to speak as the temperature rose - but everyone smiled on cue and enjoyed being in the shunshine.

Message from Mr Daniel

The Year 4 learners began their unit on "How the world works" by investigating and testing their ideas around the topic of forces. They are exploring the form and perspective of gravity by conducting their own experiments, using the scientific process as their guide. In this example learners looked at how water responds to gravity, comparing a control to their many hypotheses!

Message from Ms Valentine

Our Seniors are working hard on their extended essay, completing their experiments and readings, and writing their first draft.

On this picture, William in the Science lab doing his experiment on indigo dye. Doesn't he look like a professional scientist?

The Year 11 DP Design Technology are starting a new unit on Innovation and Design. So far they have inquired about the difference between invention and innovation. In

Utahloy International School Zengcheng Dapuwei Country, Zengjiang St, Zengcheng District, Guangzhou PRC 511325

order to understand these concepts a bit more, students investigated the history of John Dyson and his famous invention of the Dyson vacuum. In order to apply these design concepts, students collaborated to create a Dyson vacuum and will use a 3D pen among other tools to create a replica of the famous Dyson vacuum. It will be a progress project to create rapid modelling of a product.

OUTRO

We wish everyone a sumptuous weekend. Why not take a walk in the Guangdong mountains- the weather is cooler now and the views are breathtaking. However you choose to spend your weekend - try to relax, unwind and have some fun. See you all back at school on Monday!

Warmest wishes, UISZ School & Boarding Community
