Message From Ms. Jane 来自 Jane 老师的寄语:

In Year 2 Chinese class, the current unit is about the rooms and the objects in the room. After learning the relevant vocabulary, we carried out a very interesting activity that was to bring the flash cards home, and paste the cards to the specific room or objects corresponding to the words. And our learners made a video to introduce the rooms and objects in their own rooms. In this way, we make our learning happen in the authentic community! Good job,our excellent year 2 Chinese language learners!
