

广州增城誉德莱外籍人员子女学校第 23 周教学活动总结

INTRO

This Wednesday morning Secondary held their first assembly in the Theatre after returning from the CNY holiday. Students who have studied and contributed well were awarded with certificates. And staff who organised the CNY event before the holiday were also honoured for their efforts. After the awards the Head of Secondary Mr Mohammed announced an exciting new competition for students to design the interior spaces of the new school building. If a lucky student's design is selected they will have their name and design drawing placed up in the room of the new building to recognise their design inspiration for that space. A great honour indeed!

PYP

Message from Ms Namrita

After reading “The Three Little Pigs”, K2 students decided to build their own houses. They used different materials like popsicle sticks, pipe cleaners and foam blocks to build strong houses that could withstand a wolf. They then tested their houses using a hairdryer to mimic a wolf’s ‘huff and puff’. Students then reflected and self-assessed their creations.

Message from Ms Lydia

Our Year 2 student are currently learning about Food production. We had a amazing field trip last Friday morning. We visited a local farm to see how food is cultivated, and a local wet market to see where and how is the food distributed. The same afternoon, Chef Mr Alvarado reached us to make some Italian noodles(pasta) .That was really funny. We enjoyed very much!

MYP

Message from Ms Ivy

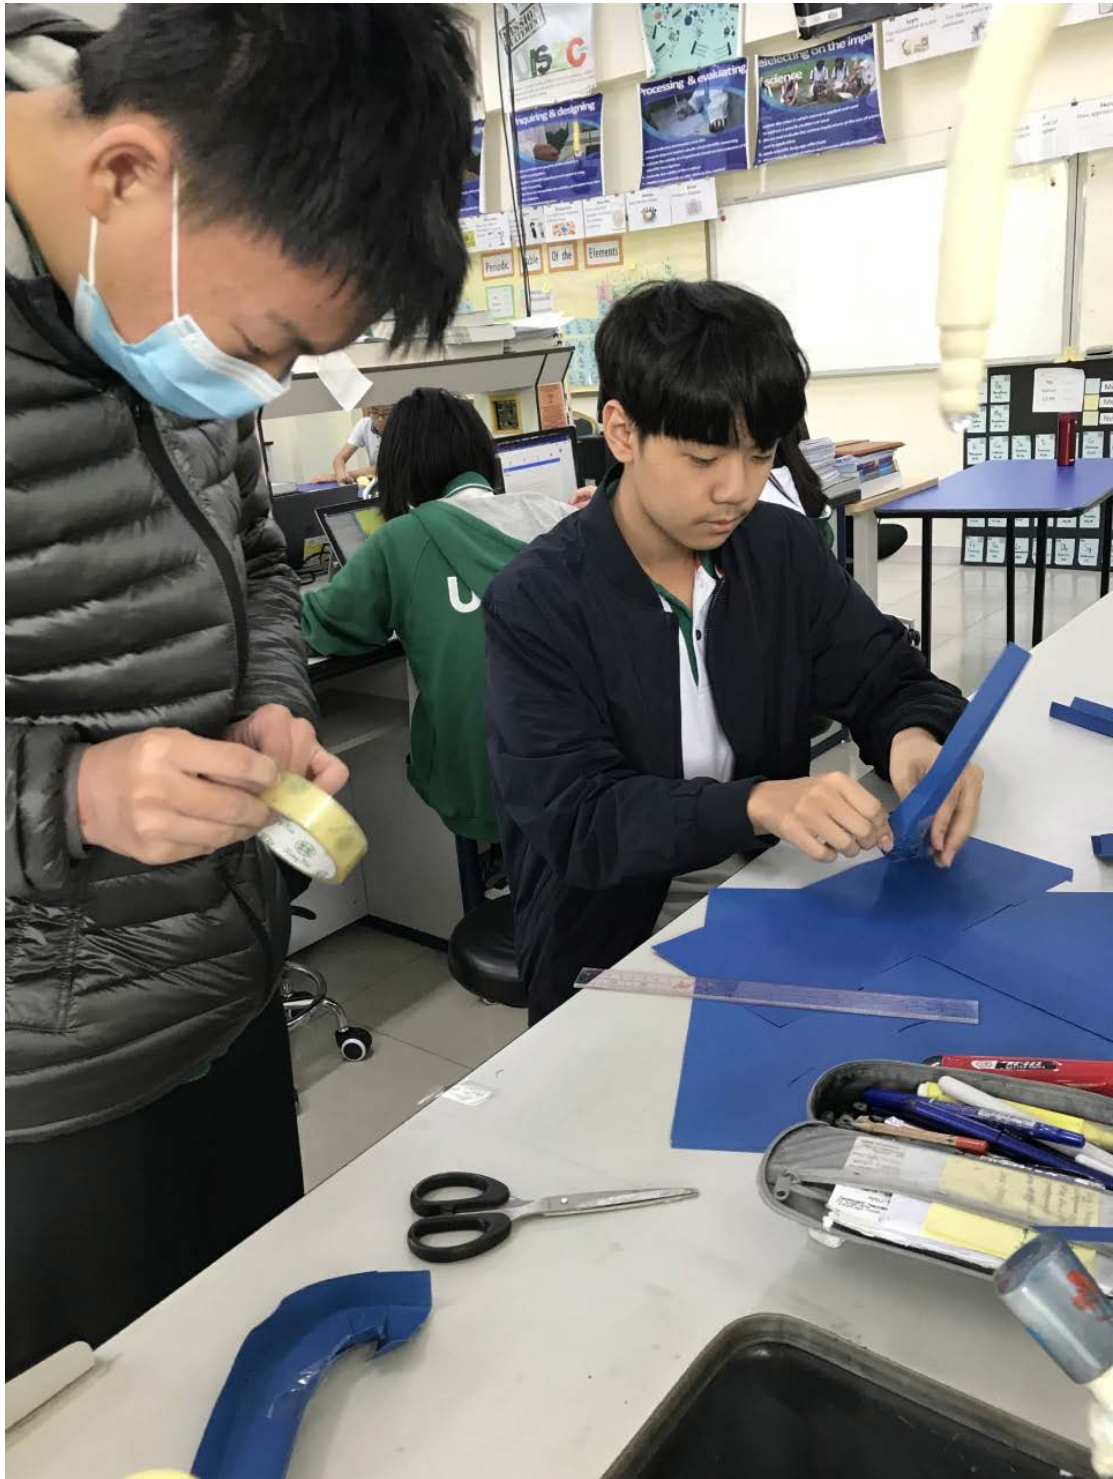

Y9 Science students acquired the most fundamental and important understanding about the interplay between force and motion. They learnt several aspects of gravity, magnetism and friction. Students explored gravity by building their own roller coaster. Escaping the Stockroom game helped students understand the idea of the magnet and the concept of magnetism. They also identified the present and the role of forces in movie scenes. Students have concentrated on developing skills to read and Interpret data presented on a graph.

SPORTS

Message from Ms Chevonne

The Middle School Volleyball season is just getting started and we are already off to a great start. We played in our opening PRC Exchange this past weekend at NCPA. The girls played 2nd and the boys placed 4th going into the season. We have high expectations for this coming season and are looking forward to bringing home medals at the end of the season.

OUTRO

We wish all our hard working students - their parents and caregivers a restful weekend. See you back on Monday for more exciting learning!_

Warmest wishes,
UISZ School & Boarding Community
